

# Foundation for Healthy Communities

The Foundation for Healthy Communities (FHC) is a non-profit organization that works statewide to improve health and healthcare through collaborative partnerships so that New Hampshire residents achieve their highest potential for health and well-being in the communities where they live, work, learn and play.

The Foundation for Healthy Communities is renowned on a state and national level for its ability to engage diverse partners in new, innovative collaborations and to serve as the backbone support for a variety of initiatives that address the health and healthcare needs of our state. We focus our efforts on quality improvement initiatives, health promotion, and access to affordable health care, as well as patient and family engagement strategies, health equity and health disparities of care, behavioral health and substance use disorders and many more. We achieve our mission of improving total population health through our dynamic partnerships between hospitals, medical providers, health plans, healthcare stakeholders, as well as community organizations and individuals. As an affiliated organization of the New Hampshire Hospital Association, the FHC is strategically linked to all of the hospitals and health systems in the state.

*We offer our partners the ability to engage in strategic partnerships that address the most pressing health issues for communities throughout New Hampshire.*

## *FHC Partner: \$12,500*
